It is worth 10 points.

The screenshot shows a Blackboard interface for a 'Blizzard Bag 1'. At the top, there is a yellow header bar with a folder icon and the text 'Blizzard Bag 1'. Below this are four blue navigation buttons: 'Build Content', 'Assessments', 'Tools', and 'Partner Content', each with a dropdown arrow. To the right of these buttons is a 'Discover Content' link with an up/down arrow. Below the header, there are two activity items listed in a scrollable area. The first item is 'Calculation Nation Factor Dazzle', which includes a globe icon and a description: 'Play 2 rounds of Factor Dazzle. Take a screen shot of each of the final screens with the final score, paste them in Paint and Save it as a jpeg. Then upload it to the Factor Dazzle Assignment or take a picture of the final scores with a phone camera and email them to cindy.swarts@db.k12.oh.us.' The second item is 'Factor Dazzle', which includes a calculator icon.
